

CORONAVIRUS AND SEEING FAMILY

Coronavirus is still around

Many people getting sick every day

When its cold we need to be very careful

the virus can spread easily

Coronavirus can make us very sick

We aren't allowed to do many activities

out of the house

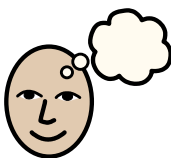

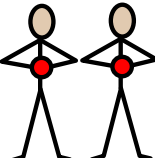

or see or hug or spend time with

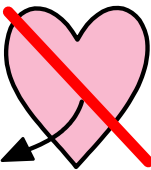

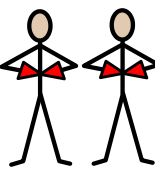

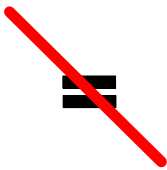

our families as before

---

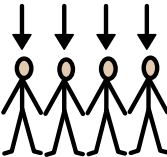

---

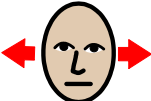

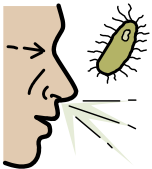

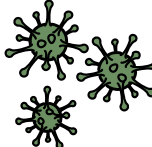

This doesn't  mean  our  families

 don't want   hug  us  but we  aren't

 allowed  right  now

---

this is to  help  keep  everyone  safe  and

 not  spread  the  virus

---

---

Instead we can wave give an air

high five and speak on the phone or

facetime

---

if i am feeling sad about my family and

missing them I can speak to staff

who will help me feel better
